Muthaa Community
Development Foundation

Our mission is to promote projects and strategies that will empower and effect positive change in the community. One of the ways we have done this is through workshop training.

Muthaa Community Development Foundation (MCDF) is a Kenyan Non Governmental and a non-profit making organization that believes and works for community partnership to impact society for a better today and tomorrow.

We support community driven development initiatives through social investment, resource mobilization, life skills based education in institutions and communities and capacity building.

Vision

Sustainable development for the people of Africa

Mission

To use innovative technologies that is relevant in Africa to empower and facilitate positive change in the community.

Aim

To build the Foundation big enough for our social needs yet small enough to LISTEN, CARE and ACCOMMODATE Communities' Developers and Development.

Organization's Background and History

MCDF is a Kenyan foundation founded in 2005 with its headquarters in Nairobi registered under Societies Act Cap 61. The foundation has mainly carried out its operations in the Kayafungo region of Coast Province, sections of Central Province and Nairobi area.

Programs

The following are MCDF programs;

- Health
 - Female Condom
 - WATSAN
- Education
 - LeadNext Project
 - Tree to Class Health Project
- Social Economic
 - Creative Thinking
 - Kaleidoscope Africa Program.
 - Corporate Social Responsibility (CSR)

Rationale for partnerships:

As a non-governmental organization working towards improving the quality of life of the disadvantaged, MCDF finds it important to form strong partnerships with those pursuing similar goals and share the same vision, these include; NGOs, government agencies, corporations, foundations or individuals. Building strong partnerships ensures the cross-sectoral support and knowledge-sharing necessary for strong, high-quality projects and programs. MCDF has collaborated and worked with different partners and stakeholders.

Personnel

MCDF has a highly skilled and motivated team of professionals. We have assembled a strong management team with positive, dynamic and yet focused individuals in order to execute solid effective plans and projects.

Depending on a project, if MCDF collaborate with an organization, then they form a management team to work on the particular project. Also we work with consultants on short term basis and volunteers.

We support community driven development initiatives through social investment, resource mobilization, life skills based education in institutions and communities and capacity building.
